

The machine has the Y axis and the tools are motorized. Axis C is to control and has the possibility to mill. The attacks to mill are ISO 50.
It has 3 guides and turning diameter is 1250.

LATHE SAFOP HT 1250

- Lathe Safop HT 1250
- Brand: Safop
- Model: HT 1250 CNC
- CNC: Siemens
- Length: 8 metri
- Axis C
- Axis X
- Axis Y
- Axis Z
- 2 Motorized Tools ISO 50
- Turret Baruffaldi with 12 positions
- 2 plateaux
- 2 bezel

Siemens CNC model SINUMERIK 820 T

Distance between the tips 7500

Z axis travel 8200

Feeds : attached manual

Rapids: attached manual

Spindle connection ASA 15

Bar passage 240

Spindle torque yes, it's 10195 Nm maximum torque

C axis torque yes, it's 19200 Nm maximum torque

Floor space length 13,5 m x width 4,5 m

Height: I need to check I will let you know asap

Chip conveyor: yes

Available also: 2 bezel, 1 plateau, 2 driven tools, 10 tools holder.
