**ALL OUTPUTS STATED CAN BE CONFIRMED ON RECEIPT OF SAMPLE PRODUCTS.**

Please note that speeds indicated are 'best estimate', output is subject to many factors that can reduce the performance

eg: **Bottle Neck inside diameter**

**Shape of the tablet**

**Dynamic characteristics of the product**

**Friability of the product**

**How the product reacts to changing ambient conditions**

**Coefficient of friction of the product**

**An accurate indication of production can only be provided when product and containers have been fully tested**
