

1. TECHNICAL FEATURES F-11 TOWELETTES**1.1 Machine type.**

Automatic packing machine for powdered pasty tissues and granuler products. It makes three-side sealed or four-side sealed sachets in heatsealable material.

1.2 Sachets size.

Max.....110 mm widht x 130 mm high
Min..... 45 mm widht x 70 mm high

1.3 Unfolded Tissue.

Max.....140 mm widht x 250 mm high
Min.....140 mm widht x 140 mm high

1.4 Filling capacity.

Max.....8 c.c.

1.5 Output.

Max.....100 sachets/min 6000 sachets/h
Min..... 40 sachets/min 2400 sachets/h

Note.- The output will be always subject to the product to be packed aswrapping material well as to the filling system to be used.

1.6 Wrapping material type.

It could be handled any heatsealable material sealing by constant heat, such as: opaline-polyethylene, cellophane-polyethylene, polyester-polyethylene, bi-oriented polypropylene, opaline-AL-PE, etc.

1.7 Electrical characteristics.

Voltage: 220/380 volts.
Hertz : 50/60 Hz.
Phases : 3
Grond : (yellow-green colour)
Others upon request

Both the electrical and operation installation are made as per European Standards.

1.8 Consumption.

Min.....3,4 K.V.A.

1.9 Nett weight.

770 Kg. approx.

1.10 Dimensions.

Machine Lenght 1860mm. Height 1800mm. Width 920mm.
Feeder Lenght 1280mm. Height 1700mm. Width 935mm.
