

Whole Line:			
Name		Name CBZ500	
Standard capacity		400-600KG/H	
Power (whole line electrically heat)		290kw	
Compressed air		6-8KG/Min	
Labor		2	
Device height		2.5M	
NO.	EQUIPMENT	SPEC.	QTY
Part 1. Ingredients processing part			
1	Colloid mill machine (5kW)	120L	1set
1.1	Jacket Cooking tank with mixer (for filling material cooking)	500L	1set
1.2	Jacket Cooking tank with mixer (For coating material cooking)	500L	1set
1.3	Jacket Cooker tank with mixer (for protection liquid cooking)	500L	1set
1.4	Cooling tank with mixer (for filling material cooling)	500L	1set
1.5	Cooling tank with mixer (for coating material cooling)	500L	1set
1.6	Gear pump with piping and valves	1"	5set
Part 2.CBZ200-D Depositor system(Forming machine)			
2.1	Filling materials depositor nozzle&hopper jacket	400-600kg/h	1set
2.2	Forming solution holding and circling system		1set
2.3	Slipping plate		2pcs
2.4	Filtering system		1set
2.5	Collecting vessel		2set
2.6	Solution recycling system		1set
2.7	PLC control cabinet+PLC remote control		1set
Part 3.Sterilization part			
3	Sterilization machine		1set
