

Machines and tools for thermoforming and packaging technology

Sheet processing machines
Automatic roll-fed thermoformers
for forming/punching tools
Automatic roll-fed thermoformers,
separate forming and punching,
Skin and blister packaging machines
Form, fill and seal lines
ILLIG-produced tooling

illig®

Heat Sealing
Press HSP 35b,
-1, -2, -3, -4

HSP 35b-3

Technical Data		HSP 35b	-1	-2	-3	-4
Max. working area	mm	350x250	350x250	350x250	350x250	350x250
Max. blister depth / height of sealing receiver	mm	130	70	70	70	60
Number of sealing receivers		4	4	4	4	4
Electr. consumption of sealing heater	kW	1.75	1.75	1.75	1.75	1.75
Total electr. consumption	kW	2.15	2.5	2.5	2.85	2.85
Sealing force	kN	13	13	13	13	13
Width of machine	mm	980	1295	1455	1770	2015
Depth of machine	mm	1520	1520	1520	1520	1520
Height of machine	mm	1660	1660	1660	1660	1825
Total weight	kg	300	430	420	450	450
Air consumption at 6 bar (decompressed air)	l					6
Standard colour white/blue RAL 9002 and RAL 5013						

Standard blister package

All-plastic blister package

Double-card blister package

All-card blister package
