CONSTRUCTION

# Four functional modules

**01**

### Transport conveyor

Moves the bottles smoothly and evenly through the machine.

**02**

### Labelling heads

Apply front and back labels with high accuracy and consistent quality.

**03**

### Centring device

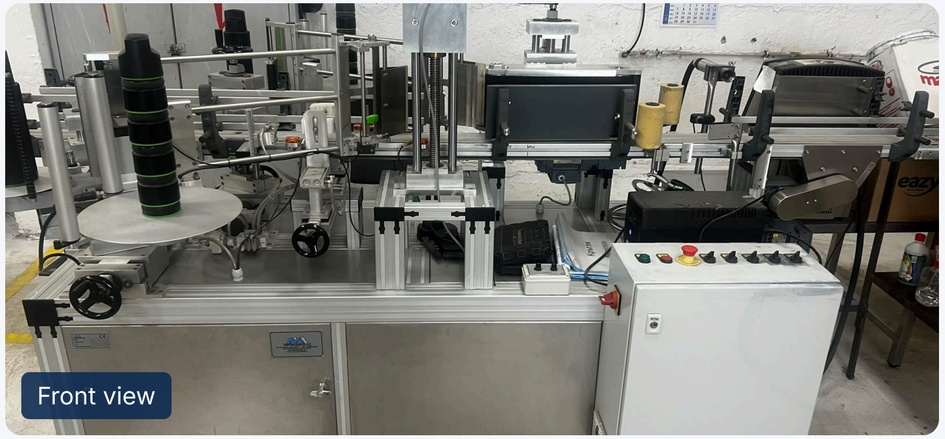

Aligns and centres each bottle before labelling.

**04**

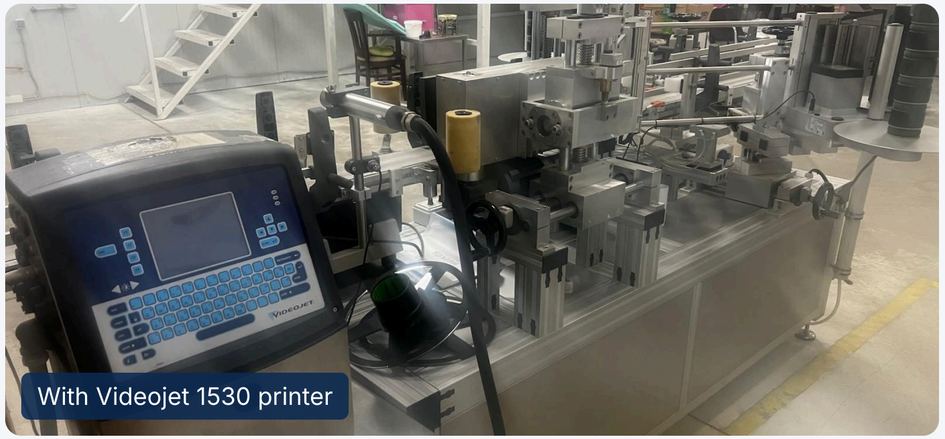

### Bottle separator

Spaces the bottles for precise label placement.

**Applications:** Cosmetics · household chemicals · food products · technical liquids. Easy integration into existing filling lines; quick changeover between bottle formats.
